NETAFIM USA INTRODUCES DRIP-LESS SPRINKLERS WITH THE INDUSTRY'S WIDEST WETTED PATTERN

Fresno, CA –Netafim USA, the industry-leading manufacturer of micro-irrigation systems introduces a line SpinNet Sprinklers offering the watering solution for bedding plants, potted perennials, vegetable seedlings and nursery containers in hoop houses.

SpinNet Sprinklers offer drip-less operation, the industry's widest wetted pattern, unprecedented levels of watering uniformity, simple construction and improved sprinkler selection processes. Details of these key features include:

- Drip-less operation – the plants the plants below are not damaged from water dripping off the bridge of the sprinkler
- Wide wetted pattern – two line sprinkler applications can now utilize a single line (up to 24') saving money and installation time
- Higher watering uniformity – more water in targeted are producing a higher quality crop, saving water and fertilizer.
- Simple, durable construction – molded from anti-acid plastics for long-life and easy disassembly without tools
- Simplified sprinkler selection process – only a few sprinklers offering versatility of flows and patterns making sprinkler selection easy

Netafim also introduces the NEW Sprinkler Systems Design Guide. Packed with useful sprinkler, mister and fogger design selection and application information. Easy to read charts and step by step guidelines allow you to quickly and simply choose the right product for your application.

Awarded **ISO 9001:2000 Certification** by the International Organization for Standardization - Netafim USA is the largest growing division of the Netafim International Group, the pioneer of micro-irrigation technology. With over 39 years in the irrigation industry and global expertise in more than 80 countries, Netafim offers a full-line of products for a variety of markets including agriculture, landscape, greenhouse, nursery, mining and wastewater. Netafim USA is headquartered in Fresno, California.
